INTRODUCTION

The Department of Commerce and Development is pleased to present a completely revised edition of its "Directory of Products and Manufacturers, New Brunswick 1982".

This directory has been prepared to acquaint buyers, both domestic and foreign, with the products produced by and available from New Brunswick manufacturers. All manufacturing and processing establishments have been listed in a manner which will facilitate direct contact by interested buyers. In addition, the directory is designed to familiarize consumers with the variety of products produced within their own province.

The information utilized in compiling this directory was obtained from other government departments and from individual manufacturers in response to questionnaires and telephone inquiries. The Department of Commerce and Development gratefully acknowledges the contribution of all those whose cooperation has made the publication of this directory possible.

INTRODUCTION

Le ministère du Commerce et du Développement est heureux de présenter une édition entièrement remaniée de son "Répertoire des Produits et Fabricants du Nouveau-Brunswick, 1982".

Ce répertoire a été préparé dans le but de faire connaître aux acheteurs, tant étrangers que canadiens, les produits fabriqués et disponibles au Nouveau-Brunswick. Tous les établissements de fabrication ou de transformation ont été répertoriés de façon à ce que l'acheteur éventuel puisse prendre contact facilement avec les entreprises concernées. De plus, le répertoire a été conçu dans le but de familiariser les consommateurs provinciaux avec la gamme de produits faits dans leur propre province.

L'information utilisée dans la compilation du répertoire "Fabricants et produits du Nouveau-Brunswick, 1982" a été obtenue des autres ministères du gouvernement et des fabricants au moyen de questionnaires et d'enquêtes téléphoniques. Le ministère du Commerce et du Développement tient à exprimer sa reconnaissance à tous ceux dont la collaboration a rendu possible la réalisation de cet ouvrage.

FOREWORD

HOW TO USE THE DIRECTORY

Immediately following the foreword there is a prefatory section containing general background information relative to the Province of New Brunswick. The first part of this material consists of a thumbnail sketch of provincial geographic, demographic and economic characteristics. The second part briefly describes the New Brunswick Department of Commerce and Development and its associated agencies. Part three lists the Industrial Commissions located in New Brunswick. Part four gives a brief description of B.O.S.S. which is a further source of additional information available.

The directory itself consists of four major sections followed by two appendixes:

SECTION 1
NEW BRUNSWICK PRODUCTS —
ALPHABETICAL CLASSIFICATION

Products manufactured in the province are itemized alphabetically in this section. Every product is followed by a list of the appropriate manufacturers' names. Details with respect to the manufacturers so listed are not repeated in this section, but may be readily obtained by reference to Section 2.

SECTION 2
NEW BRUNSWICK MANUFACTURERS —
ALPHABETICAL CLASSIFICATION

New Brunswick manufacturers are listed alphabetically by establishment name. The name is followed by the mailing address and then the plant location when it differs from the former. After this the manager's name and telephone number are indicated. Then the Standard Industrial Classification (SIC) is listed indicating the industry/ies assigned to the establishment, the first SIC listed being the major industry, for each firm. Following is a list of products and an employment figure.

Although this year we have deleted the Industrial Classification section of the directory, inquiries for a listing of firms by specific industry groups will be handled by the Department of Commerce and Development upon request.

SECTION 3
NEW BRUNSWICK MANUFACTURERS —
COUNTY CLASSIFICATION

The Province of New Brunswick is divided into 15 counties: Albert, Carleton, Charlotte, Gloucester, Kent, Kings, Madawaska, Northumberland, Queens, Restigouche, St. John, Sunbury, Victoria, Westmorland and York.

In this section every county constitutes a sub-section. Municipalities where manufacturing establishments may be located are listed alphabetically within each subsection. Manufacturing establishments located in each municipality are grouped alphabetically.

For suplementary reference, Appendix 2 contains a municipal population index and a map of New Brunswick indicating the 15 counties.

SECTION 4
NEW BRUNSWICK MANUFACTURERS —
INDUSTRIAL PARKS CLASSIFICATION

The 31 industrial parks where manufacturing establishments are located are listed alphabetically in this section. The location of these parks is indicated and manufacturers located therein are listed alphabetically.

AVANT-PROPOS

MODE D'UTILISATION DU RÉPERTOIRE

Une section préliminaire suit immédiatement l'avant-propos et contient des renseignements généraux sur la province du Nouveau-Brunswick. La première partie de cette documentation consiste en un bref aperçu des caractéristiques économiques, démographiques et géographiques de la province. La seconde partie décrit brièvement le ministère du Commerce et du Développement et ses organismes affiliés. La troisième partie établit une liste des commissions industrielles du Nouveau-Brunswick. La quatrième partie traite brièvement du système de repérage des débouchés (SRD), une autre source d'information disponible.

Le répertoire même comprend quatre sections principales suivies de deux annexes:

SECTION 1
PRODUITS DU NOUVEAU-BRUNSWICK —
CLASSEMENT ALPHABÉTIQUE

Cette section comprend une liste par ordre alphabétique des produits fabriqués dans la province. Chaque produit est suivi d'une liste des noms des fabricants appropriés. Les détails particuliers aux fabricants présentés dans la Section 2 ne sont pas répétés dans cette section.

SECTION 2
FABRICANTS DU NOUVEAU-BRUNSWICK —
CLASSEMENT ALPHABÉTIQUE

Les fabricants du Nouveau-Brunswick sont présentés par ordre alphabétique, suivis du nom de l'établissement, de son adresse postale et ensuite de celle de son emplacement, si les adresses sont différentes. Le nom du gérant et le numéro de téléphone sont ensuite indiqués. Par la suite, la classification type de l'industrie (CTI) est présentée, montrant quelle(s) branche(s) d'activité est ou sont attachées(s) à l'établissement: la première CTI représente la branche d'activité principale pour chaque entreprise. En dernier, nous retrouvons une liste des produits et le chiffre d'emploi.

Même si cette année, nous avons éliminé la section de classification industrielle du répertoire, le ministère du Commerce et du Développement se chargera de répondre à toute demande visant à obtenir une liste des entreprises par secteurs industriels spécifiques.

SECTION 3
FABRICANTS DU NOUVEAU-BRUNSWICK —
CLASSEMENT PAR COMTÉ

La province du Nouveau-Brunswick est divisée en 15 comtés: Albert, Carleton, Charlotte, Gloucester, Kent, Kings, Madawaska, Northumberland, Queens, Restigouche, Saint-Jean, Sunbury, Victoria, Westmorland et York.

Dans cette section, chaque comté représente une sous-section. Les municipalités où sont situés des établissements manufacturiers sont présentées par ordre alphabétique, de même que ces établissements.

Vous pouvez aussi consulter l'annexe 2 qui comprend un index de la population municipale et une carte du Nouveau-Brunswick montrant les 15 comtés.

SECTION 4
FABRICANTS DU NOUVEAU-BRUNSWICK —
CLASSIFICATION DES PARCS INDUSTRIELS

Les 31 parcs industriels où sont situés des établissements manufacturiers sont présentés par ordre alphabétique. L'emplacement de chaque parc est indiqué et les fabricants qui s'y trouvent sont présentés par ordre alphabétique.

THE PROVINCE OF NEW BRUNSWICK

I. AN INTRODUCTORY PROFILE

LOCATION:

The Province of New Brunswick, on the Atlantic Coast of Canada, is a roughly rectangular area of about 28,000 square miles (73,500 square kilometres). Its approximate position on the map is between 45 to 48 degrees latitude, and 64 to 69 degrees longitude.

New Brunswick's capital city, Fredericton, in the southwestern part of the province, is 518 miles (829 km.) by highway from Montreal; 853 (1,368 km.) from Toronto; and 627 (1,003 km.) from New York. Flying time from the capital to Montreal is approximately 65 minutes; to Toronto, one hour 50 minutes; and to New York (via Montreal), three hours, 10 minutes.

The province's major port city, Saint John, on the Bay of Fundy in the south, is 2,338 nautical miles from Panama; 2,977 from London; 3,020 from Antwerp; and 3,176 from Hamburg.

POPULATION & LABOUR MARKET:

On July 1, 1982, New Brunswick's total population was estimated at 701,800 persons, an increase of 5,100 or 0.7 per cent over the previous year.

During 1981 New Brunswick's labour force increased at a rate of 2.4 per cent to 296,000 persons. At the same time, the number of persons employed increased 1.9% to 262,000.

The unprecedented increase in employment which occurred in New Brunswick from 1971 to 1981 resulted in some 65,000 new jobs during this period.

1981 LABOUR MARKET

Labour Force	296,000
Employed	262,000
Unemployment Rate	11.7%

Vast government expenditures on education during the post-war period coupled with improvements in the educational system and the increased availability of all types of industrial training programs have resulted in a labour force that is skilled, well-motivated and adaptable.

ECONOMY

The New Brunswick economy, historically, has been characterized by a dependence on the primary industries. Proximity to the United States, the locational advantage of year-round ice-free ports on the Atlantic Ocean and historical cultural and economic ties with Western Europe have resulted in reliance on trade in export markets.

In 1981, New Brunswick's Gross Domestic Product (GDP) was estimated at a record level of over $5.8 billion. During the 1971-81 period, the GDP increased at an average annual rate of 12.4 per cent. This was slightly less than the average annual rate of 13.2 per cent for Canada's Gross Domestic Product. Over this period real GDP increased by over 3.3 per cent annually in real terms (net of price increases), compared with a 4.1 per cent growth rate for Canada.

The total value of New Brunswick's exports in 1981 is estimated in excess of $2 billion. Provincial exports, excluding petroleum products, represented over 25 per cent of GDP.

INDUSTRY

Although New Brunswick's industrial structure is still heavily oriented towards the extractive industries, the manufacturing sector is becoming more important as a generator of income and employment. During the 1971-81 period, new capital invested in manufacturing in the province totalled more than $1.8 billion.

INDUSTRIAL FACTS 1981

Farm Cash Receipts	$198 million
Seafish Landings —	
Value	$ 50 million

Lumber Production	877.0 thousand cubic metres
Value of Mineral Production	$535 million
Value of Manufacturing Shipments	$3,871 million
Retail Trade	$2,318 million

Source: Statistics Canada, Various Publications

During the 1971-1981 period, total wages and salaries in manufacturing increased 253.8% to $479 million. In addition, the value of manufacturing shipments in 1981 reached a record level of over $3.8 billion, compared with $807 million in 1971.

The long-term outlook for New Brunswick's manufacturing sector has been improved by the availability of government financial incentive programs which have led to a healthy sustainable manufacturing sector.

TRANSPORTATION:

In New Brunswick there are approximately 1,400 miles of arterial highways and 1,300 miles of collector roads, 95 per cent of which are hardsurfaced. The main highway system, including 380 miles of Trans-Canada Highway, links the province with the principal roads in the neighbouring provinces of Quebec and Nova Scotia, as well as the Interstate Highway System in the United States' eastern seaboard states.

New Brunswick is served by both major Canadian railways, the Canadian National Railway, and the Canadian Pacific Railway through its C.P. Rail division. Both companies have additional interests in trucking, shipping and air carriers to provide a variety of services.

Several ports in New Brunswick accommodate ocean vessels; Saint John on the Bay of Fundy and Newcastle-Chatham, Bathurst, Belledune and Dalhousie on the Gulf of St. Lawrence coast of the province.

Saint John and Belledune are ice-free year round and the others are opened to navigation by icebreakers as required during the winter season.

Mainline air services are provided to New Brunswick by two carriers, Air Canada and Eastern Provincial Airways, with jet aircraft providing passenger service through five major airports. Two of these airports also handle the all-cargo flights of Air Canada. Other smaller airports are located throughout the province with several operators licensed to carry out a variety of air services.

II. DEPARTMENT OF COMMERCE AND DEVELOPMENT AND ASSOCIATED AGENCIES.

The New Brunswick Department of Commerce and Development has the responsibility for the promotion and development of the manufacturing and processing sectors of the provincial economy.

The main thursts of the Department's efforts are:

1. To continue to build a strong industrial base through the development of local entrepreneurs and local firms in all areas of the province.
2. To diversify the industrial base through the promotion of new investment from outside the province and the introduction of new technology and products.
3. To provide the necessary infrastructure required for economic development.

These objectives are achieved through three branches:

COMMERCE AND INDUSTRY SERVICES

The Commerce and Industry Services Branch is responsible for the provision of services to existing manufacturing and processing industries through cost shared programs and staff advisory assistance, as well as the monitoring of financially assisted companies. The Branch develops and maintains information on various industry sectors and, in association with the Planning and Administration Branch, plans strategy for sector development. Assistance is provided through the Industrial Development Branch in preparing new companies for the New Brunswick manufacturing environment.

Divisions within the Branch provide industry, marketing, management and technical services.

INDUSTRIAL DEVELOPMENT

The role of the Industrial Development Branch is one of promotion to bring about development, to achieve job creation and capital investment, and to achieve structural change in various sectors of the provincial economy.

The New Industry Development Division is responsible for promoting new industrial development projects. The division aims to attract both foreign and Canadian industrial technology and entrepreneurship to a New Brunswick base. The Project Development Division provides the necessary support services to the new industry development activities of the Branch.

The Regional Development and Small Industry Division is composed of three groups: regional programs, physical services and small industry. The Division assumes the overall responsibility for implementing the programs of the Federal-Provincial development agreements pertaining to regional development and for implementing the Small Industry Loan Program.

PLANNING AND ADMINISTRATION

This Branch is responsible for the formulation, monitoring and evaluation of policies and programs for industrial development in the province, the development of the Department's annual operating and capital budget, the assembly and distribution of statistical data as warranted by departmental activities, and intergovernmental relations.

It is also responsible for the administrative support services to operating divisions of the Department.

ASSOCIATED AGENCIES

Agencies associated with the Department and reporting to the Minister of Commerce and Development are:

NEW BRUNSWICK INDUSTRIAL DEVELOPMENT BOARD — The Board meets regularly to assess and to make recommendations on applications for financial assistance to industry. This assistance normally takes the form of a direct loan or loan guarantee.

NEW BRUNSWICK INDUSTRIAL DEVELOPMENT APPEAL BOARD — If an application for assistance is rejected by the Development Board, the applicant may request that his application be reviewed by the Appeal Board.

PROVINCIAL HOLDINGS LTD. — Provincial Holdings Ltd. is a Crown-owned corporation which holds and administers the Province's equity position in various companies. The agency may take an equity position in manufacturing and processing industries wishing to locate in New Brunswick.

LA PROVINCE DU NOUVEAU-BRUNSWICK

I. SURVOL DU NOUVEAU-BRUNSWICK

SITUATION GÉOGRAPHIQUE:

La province du Nouveau-Brunswick, située sur la côte atlantique du Canada, est une région à peu près rectangulaire d'environ 28 000 milles carrés (73 500 kilomètres carrés). Sa position approximative sur la carte est entre 45° et 48° de latitude Nord et 64° et 69° de longitude Ouest.

Fredericton, la capitale du Nouveau-Brunswick, située dans la partie sud-ouest de la province, est, à 518 milles (829km) de Montréal par la route, à 853 milles (1 368km) de Toronto et à 627 milles (1 003km) de New York. Par avion, la capitale est approximativement à 65 minutes de Montréal, à 1 heure 50 minutes de Toronto et à 3 heures 10 minutes de New York (via Montréal).

Le principal port de la province, Saint-Jean, situé sur la Baie de Fundy, dans le sud de la province, est à 2 338 milles nautiques de Panama, à 2 977 de Lourdes, à 3 020 d'Anvers et à 3 176 de Hambourg.

LA POPULATION ET LE MARCHÉ DU TRAVAIL:

Le 1er juillet 1982, la population totale du Nouveau-Brunswick s'élevait à 701,800 personnes, soit une augmentation de 5,100 ou de 0.7% par rapport à l'année précédente.

Au cours de 1981 la population active du Nouveau-Brunswick s'est accrue à un taux de 2.4% pour atteindre 296,000 personnes. Parallèlement, le nombre de personnes au travail est passé à 262,000, soit une augmentation de 1.9%.

L'augmentation sans précédent du nombre d'emplois, survenue au Nouveau-Brunswick entre 1971 et 1981 a entraîné la création de quelques 65,000 nouveaux emplois durant cette période.

ÉCONOMIE:

Dans le passé, l'économie du Nouveau-Brunswick a été marquée par une dépendance à l'égard des industries primaires. La proximité des États-Unis, le fait que la province jouit de ports libres de glace pendant toute l'année sur l'océan Atlantique ainsi que les liens historiques, culturels et économiques avec l'Europe occidentale font que le commerce d'exportation occupe une place importante dans l'économie de la province.

En 1981, le produit provincial brut du Nouveau-Brunswick (PPB) était évalué à un niveau record de plus de $5.8 milliards. Au cours de la période 1971-1981, le PPB a crû à un taux annuel moyen de 12.4%, soit un peu moins que celui du produit national brut qui est de 13.2%. Durant cette période, la PPB réel a augmenté de plus de 3.3% par année comparativement à un taux de croissance de 4.1% pour le Canada.

La valeur totale des exportations du Nouveau-Brunswick en 1981 a été évalué à plus de $2 milliards. La valeur des exportations de la province, en excluant les produits du pétrole, représente plus de 25% du PPB.

INDUSTRIE:

Bien que les structures industrielles du Nouveau-Brunswick reposent encore principalement sur les industries extractives, le secteur de la fabrication est devenu une source plus importante de revenu et d'emploi. Au cours de la période 1971-81, les nouveaux investissements dans l'industrie manufacturière de la province ont totalisé plus $1.8 milliard.

RÉALITÉS ÉCONOMIQUES 1981

Recettes monétaires agricoles	$198 millions
Débarquements de poissons	
Valeur	$ 50 millions
Quantité	95,000 tonnes métriques
Bois de construction	877.0 milliers pmp
Valeur de la production minière	$535 millions
Valeur des expéditions manufacturières	$3 871 millions
Commerce de détail	$2 318 millions

Source: Statistique Canada, diverses publications

Au cours de la période 1971-81, le total des salaires dans le secteur manufacturier a augmenté de 253.8% pour atteindre $479 millions. De plus, la valeur des expéditions manufacturières en 1979 a atteint un niveau record de plus de $3.8 milliard, comparativement à $807 millions en 1971.

Les perspectives à long terme du secteur manufacturier du Nouveau-Brunswick ont été améliorées par l'accessibilité aux programmes d'aide financière du gouvernement, programmes qui ont pour résultat la création d'un secteur manufacturier viable et qui pourra être maintenue.

TRANSPORT:

Le Nouveau-Brunswick compte environ 1 400 milles de grandes routes et 1 300 milles de routes collectrices dont 95% ont un revêtement dur. Le principal réseau routier, qui comprend 380 milles de route transcanadienne, relie la province aux principales routes des provinces avoisinantes du Québec et de la Nouvelle-Ecosse ainsi qu'au réseau routier des états de la côte est des Etats-Unis.

Le Nouveau-Brunswick est desservi par les deux principaux chemins de fer canadiens, le Canadien National et la division ferroviaire du Canadien Pacific. Chaque compagnie a également des ramifications dans le domaine du transport routier, maritime et aérien afin d'assurer une grande variété de services.

Plusieurs ports du Nouveau-Brunswick peuvent accueillir les gros navires: Saint Jean, sur la Baie de Fundy et, le long du Golfe Saint-Laurent, Newcastle-Chatham, Bathurst, Belledune et Dalhousie.

Deux de ces ports, Saint-Jean et Belledune, sont libres de glace pendant toute l'année; les autres sont ouverts à la navigation grâce à des brise-glaces pendant la saison d'hiver.

Les services aériens de grande ligne sont assurés par deux transporteurs, Air Canada et Eastern Provincial Airways, par avion à réaction. Cinq grands aéroports sont affectés au transport des passagers et deux se chargent aussi des marchandises transportées par Air Canada. Les autres petits aéroports de la province disposent de plusieurs opérateurs qualifiés pour assurer les divers services aériens.

II. LE MINISTÈRE DU COMMERCE ET DU DÉVELOPPEMENT ET SES ORGANISMES ASSOCIÉS

Le ministère du Commerce et du Développement du Nouveau-Brunswick a pour principale responsabilité le développement des secteurs de la fabrication et de la transformation de l'économie provinciale.

Les efforts du ministère visent principalement:

1. A créer une base industrielle solide en assurant l'essor de l'entreprise locale dans toutes les régions de la province.
2. A diversifier l'infrastructure industrielle en encourageant les nouveaux investissements de l'extérieur de la province et en introduisant de nouvelles techniques et de nouveaux produits.
3. À fournir l'infrastructure nécessaire au développement économique. Trois directions assurent la poursuite de ces objectifs:

SERVICES AUX COMMERCES ET À L'INDUSTRIE

La Direction des services au commerce et à l'industrie a pour tâche de fournir des services aux industries de fabrication et de transformation existantes, au moyen de programmes à coûts partagés et de conseils au personnel, ainsi que par la surveillance d'entreprises recevant de l'aide financière. La Direction recueille et garde à jour de la documentation sur divers secteurs industriels et, en collaboration avec la Direction de la planification et de l'administration, prépare des stratégies de croissance sectorielle. Par l'entremise de la Direction du développement industriel, elle prépare les nouvelles entreprises au contexte manufacturier néo-brunswickois.

Des directions au sein de la Division fournissent des services en matière de marketing et de gestion et des services techniques.

DÉVELOPPEMENT INDUSTRIEL

La Direction du développement industriel a pour rôle d'encourager le développement industriel, de créer des emplois, de produire de nouveaux investissements, et d'amener des transformations structurelles dans divers secteurs de l'économie de la province.

La Division de l'implantation de nouvelles entreprises est chargée d'encourager l'implantation de nouveaux projets de développement industriel. La Division vise à attirer les exploitants et les nouvelles techniques, tant de l'étranger que du pays, au Nouveau-Brunswick. La Division de développement des projets fournit les services de soutien nécessaires aux nouvelles activités de développement industriel de la Direction.

La Division de développement régional et des petites entreprises se compose de trois sous-divisions: les programmes régionaux, les services de l'infrastructure et les petites entreprises. La Division a la responsabilité générale de l'application des ententes fédérales-provinciales relatives au développement régional et de l'application du Programme de prêts aux petites entreprises.

PLANIFICATION ET ADMINISTRATION

Cette direction est chargée de formuler, d'évaluer et de surveiller les politiques et les programmes relatifs au développement industriel de la province, d'élaborer le budget annuel d'exploitation et en capital du ministère, d'amasser et de distribuer les données statistiques nécessaires et chargée aussi des relations intergouvernementales.

La division des services administratifs assure les services de soutien administratif aux divisions d'exploitation du ministère.

ORGANISMES ASSOCIÉS

Les organismes associés au ministère et relevant du ministre du Commerce et du Développement sont:

LE CONSEIL DU DÉVELOPPEMENT INDUSTRIEL DU NOUVEAU-BRUNSWICK

Le Conseil se réunit régulièrement pour évaluer les demandes d'aide financière à accorder à l'industrie et faire des recommandations à ce sujet. L'aide se présente habituellement sous forme de prêt direct ou de garantie d'un prêt.

LA COMMISSION D'APPEL EN MATIÈRE DE DÉVELOPPEMENT INDUSTRIEL DU NOUVEAU-BRUNSWICK

Lorsque le Conseil de développement rejette une demande d'aide, le requérant peut demander une révision de sa demande par la Commission d'appel.

GESTION PROVINCIALE LTÉE

La Gestion provinciale Ltée est une corporation de la Couronne qui détient et administre les fonds que la province investit dans diverses compagnies. L'organisme peut prendre une participation dans les entreprises de fabrication et de transformation qui désirent s'installer au Nouveau-Brunswick.

NEED ADDITIONAL INFORMATION?

TRY B.O.S.S.

As well as compiling the information contained in this directory, the Department of Commerce and Development, in cooperation with the Federal Department of Industry, Trade and Commerce and other provinces, is helping to further develop a national sourcing system called "Business Opportunities Sourcing System" (B.O.S.S.). The system is now operational and is used by federal and provincial governments, trade commissioners, Chambers of Commerce, consulting firms, etc. to assist potential buyers of Canadian products locate appropriate manufacturers and to identify market opportunities for Canadian suppliers. B.O.S.S. incorporates the latest in information technology.

New Brunswick companies currently registered in B.O.S.S. are prefixed in this directory with the symbol "†". Expanded product descriptions and the names of company sales officials for these firms can be obtained by contacting any B.O.S.S. information centre. Such information can be obtained in Fredericton from the Department of Industry, Trade and Commerce 452-3190 or (Toll Free ZE 03200) or the Department of Commerce and Development 453-2489.

New Brunswick manufacturers not registered with B.O.S.S. are invited to contact the Department of Commerce and Development for a registration questionnaire.

POUR PLUS DE RENSEIGNEMENTS, CONSULTEZ LE SYSTÈME DE REPÉRAGE DES DÉBOUCHÉS (SRD)

En plus de compiler les renseignements contenus dans le présent répertoire, le ministère du Commerce et du Développement, en collaboration avec le ministère fédéral de l'industrie et du Commerce ainsi que d'autres provinces, participe à l'amélioration d'un système de repérage national appelé "Système de repérage des débouchés" (SRD). Ce système est maintenant en exploitation et est utilisé, entre autres, par les gouvernements provincial et fédéral, les commissionnaires au commerce et les firmes d'experts-conseils pour aider les acheteurs éventuels à localiser les fabricants appropriés et identifier les perspectives commerciales pour les fournisseurs canadiens. L'information de pointe en technologie est incorporée au SRD.

Les industries néo-brunswickoises qui sont actuellement inscrites au SRD sont précédées du symbole "†" dans le présent répertoire. Il est possible d'obtenir des descriptions détaillées des produits et les noms des représentants des ventes des entreprises en communiquant avec tout centre d'information du SRD. À Fredericton, veuillez communiquer avec le ministère de l'industrie et du Commerce au 452-3190 (ou sans frais ZE 03200) ou au ministère du Commerce et du Développement au 453-2489.

Les fabricants du Nouveau-Brunswick qui ne sont pas associés au SRD sont invités à le faire en communiquant avec le ministère du Commerce et du Développement pour obtenir le questionnaire d'inscription.
